Privacy Mortice Bolt
pictured in Brass

M1944
Privacy Mortice Bolt

Case diameter is always 21/32", depth varies with backset of bolt.
Forend is always 1-5/8" x 3/4".

M38 Access Rose

M26 Access Key

Other backsets are available by special order. If emergency access is desired, the M26 Access Key provides emergency access from the outside of the door. The hole on the outside of the door may be trimmed with the M38 Access Rose or a keyhole escutcheon of choice (see pages 18-20).
